Yes - that was my understanding as well that \$50k was the ceiling. We would only pay the amount of the invoice of which I have not seen.

Wait a minute. There's no way we owe \$50k now – that was close to the total cost if memory serves. The NTP I signed had various sampling events built into it, with some event/emergency sampling tied to rain events or discharges from the mine. I don't recall it being an upfront/advance payment. When Dan and I talked, I was under the impression they had performed some of the work and thus needed payment.

Laura/David,

See below. Please let me know if you approve payment to MSI in the amount of \$50,000 and we can get them paid as early as today.

Kendra, Bethany will need a DCN to allocate the payment.

Thanks,

Joe
